For many businesses, having an in-house IT staff isn't feasible. Outsourcing your IT functions makes plain financial and operational sense. Our proactive approach to IT consulting will help you harness the power of computing technology to expand your business.

Manage your IT with One of Our Support Packages

TotalCare

With TotalCare, Alliance Computer Services becomes your IT department. You will have an IT Manager assigned to your business. Call us anytime for service or support for one flat annual rate.

TotalCare includes all technology services your business many need including phone support, remote support or on-site service. In addition to repair and maintenance services, we will also provide assessment, design integration and IT consulting including budgeting and planning using our proven methodology.

Maintenance & Support

Maintenance & Support combines routine maintenance with your own assigned IT manager. We will maintain all your technology systems and provide an IT Manager on site at a pre-designated time weekly or bi-weekly. Your IT Manager will keep systems maintained and troubleshoot any issues that might have occurred since the last visit.

Basic Maintenance

Prolong the life of your IT investments and keep business productivity at its peak. Our IT professionals will provide scheduled maintenance visit on a schedule that works with your

business.
